LS40 Check Scanner

THE PRODUCT

The Italian designed LS40 check scanner combines stylish grace with the power and features the market has been craving. It was engineered specifically for the needs of Remote Deposit Capture, with quiet operations, robustness, durability, and a variety of customizations available depending upon your needs.

Dual CIS/single-pass scanning and intuitive single-hand document insertion enables amazingly quick check processing.

FEATURES

Ideal for small spaces, this powerful scanner has many options available. Including: ID Image capture, rear endorsement, front franking, and magnetic stripe / chip card reading.
